

| | |
|---|--|
| Subject and disciplines | SDG 13 – Climate Action |
| Time | 3h |
| SDGs, primary, secondary | 13: Climate Action 4: Quality Education |
| Schools and countries. contacts | <ul style="list-style-type: none"> • AP, Belgium • Edugep, Portugal |
| <p>Purpose: Students collaborate on a comparative view on SDGs in their local contexts.</p> <ul style="list-style-type: none"> • They share challenges and solutions. • They build global skills. • They contribute to sustainable communities. |  |
| Problem statement for the SDG | <p>Me, my school and climate action.</p> <p>What is my role, as a citizen and as a student regarding climate action?</p> <p>And what is the role of education?</p> |
| Work questions | <p>How do the students feel this subject impacts them personally? What is their contribution as a citizen and as a student to climate action?</p> <p>Why is their contribution, and the contribution of every citizen important?</p> <p>How did the school contribute to their awareness regarding this subject? What is the school currently doing to contribute to the climate action problem?</p> |
| Working methods and data material | <p>Group work: the students will receive written contents, links and short videos to reflect on. They will further analyze, discuss and present reflections in groups.</p> |
| Collaborative learning and mediated meetings | <p>Sharing of information and presentations for webinars, comparison of problems and solutions. Sharing process and output through movies the students will make.</p> |

| | |
|---------------------------------------|--|
| | |
| Outputs and community | <p>Possibilities:</p> <ul style="list-style-type: none"> • Written Reflection on how to be an advocate to protect the planet against climate change • Written Reflection on how School and Education has had an impact on the importance of fight against climate change |
